Hands-On Workshops

AVIATA CLOUD SOLO FLIGHT CHALLENGE

Around the World 2x

Embark on an exhilarating journey through cloud security with the Aviata Cloud Solo Flight Challenge! This FREE workshop series, built and taught by esteemed SANS faculty, is your ticket to mastering cloud security through hands-on, engaging sessions. Each monthly workshop follows the same storyline and ties directly to a specific cloud security topic, ensuring you learn the most relevant and advanced techniques in a cohesive manner. While they compliment each other, each workshop stands alone, allowing you the freedom to participate whenever you choose.

Join the crew of the cutting-edge Airborne io 24 as they navigate cloud security challenges posed by the nefarious Baron Von Herrington. Explore our session topics below:
